WHAT'S HAPPENING THIS MONTH

This year more than ever, families in the Lower Mainland need our support. The damage from catastrophic flooding has displaced entire communities and led to an increase in requests for help.

Our donations to the Lower Mainland Christmas Bureau will provide assistance across the Lower Mainland and also reach those communities.

LUNCH & LEARN SERIES

Our 2022 lunch & learn series is underway!

We have a great line up of educational and engaging topics planned to help foster your continued success and growth. We are always open to new suggestions. If you have an idea or are interested in presenting a lunch & learn, we want to hear from you!

Email us at: info@wimbc.ca

MEMBER *spotlight*

What do you enjoy most about your career in the mining industry?

The diverse friends and mentors I have been so fortunate to work with and learn from — both, at site, and in the boardroom. I am passionate about giving back and helping support young leaders in mining, because they are the future of our industry.

Kaeli Gattens

DIRECTOR OF ESG, JDS GROUP OF COMPANIES

About Kaeli

Kaeli is a cross-industry communications professional with nearly a decade of international experience in mining, construction, technology sales, and government. Kaeli's career began at Goldcorp Inc. working primarily in corporate communications and investor relations. In 2015, she was seconded to Mexico City where she led the change management and bilingual training in support of centralized technology adoption across LATAM mine sites.

For the past 6 years, Kaeli has expanded her global network through her roles at: Finning Digital, VRIFY Technologies Inc., Canada's Digital Technology Supercluster, and Sun Peak Metals Corp.

Today Kaeli is the Director of Environmental, Social Governance at the JDS Group of Companies, supporting mining, rail and clean technology customers exceed their sustainability targets.

CAREER CONNECT

ARE YOU HIRING? SHARE YOUR CAREER POSTINGS WITH US!

One of WIMBC's primary missions is to connect our members with industry opportunities.

The WIMBC member network is a collection of diverse, talented industry professionals. If your company has an active posting they would like to share, we encourage you to send it our way!

Monthly submission deadline is the 5th day of each month.

CURRENT OPPORTUNITIES

DIRECTOR, SITE ASSESSMENT AND REMEDIATION – BC/YT REGION

Hemmera is growing, are you looking for an opportunity to showcase your entrepreneurial spirit, by helping to build a business and lead a high-performing team?

If you are a senior professional engineer or scientist with experience in the fields of environmental management, contaminated site investigation and remediation, risk assessment or environmental engineering design we want to hear from you.

ABOUT YOU:

You are entrepreneurial in nature, have previous experience in leading complex projects, and are a client focused professional who thrives in a fast-paced team-approach environment. You have a strong understanding of environmental liability management and the regulatory environment within BC and/or the Yukon.

- Related technical qualifications including relevant undergraduate degree in Environmental Engineering, Geology, Environmental Science, or another related field.
- Professional designation in BC or YT.
- Hold or eligible for a standards based CSAP designation.
- Recognized as an expert in contaminated sites regulatory requirements in BC and/or YT, environmental investigations, and remediation with a dedication to and passion for your discipline.
- A minimum of ten years of progressive and related experience in contaminated sites, with a minimum of two years of experience in a business management or operations leadership role.
- Extensive project / discipline management experience involving fully managing multiple projects from beginning to end.

If you are interested in this role, please visit <https://ausenco.com/careers> or click [HERE](#) and submit your resume and cover letter.

CURRENT OPPORTUNITIES

**Ausenco**

STUDY MANAGER - VANCOUVER

If you're like us, you don't have much time for the way things are.

Ausenco is a global company redefining what's possible. Our team is based across 26 offices in 14 countries, with projects in over 80 locations worldwide. Combining our deep technical expertise with a 30-year track record, we deliver innovative, value-add consulting studies, project delivery, asset operations and maintenance solutions to the mining & metals, oil & gas, and industrial sectors.

We are currently seeking an experienced and agile Study Manager to join our Vancouver team and continue to support us in finding a better way, everyday!

ABOUT THE ROLE:

- Manage the execution of multiple, concurrent PFS or FS studies to meet the agreed objectives.
- Manage the client relationship on all assigned projects.
- Report internally and externally on project status.
- Where required, perform the role of project engineer to coordinate and integrate the various engineering disciplines.
- Maintain a consistently high quality of output by planning, coordinating, managing resources, technical quality, and study progress.
- Contribute to the ongoing development of the Studies Team to deliver best practice solutions through the application of knowledge of industry developments and experience of past trends or different situations.
- Formulate effective business cases through bringing together technical knowledge and commercial concepts
- Assist with the generation of proposals for new studies / projects.

ABOUT YOU:

- At least 5 years experience in a Project Manager role within the Consulting Engineering industry with strong base metals and minerals mineral processing experience
- Be a registered Professional Engineer is preferred
- Extensive experience in the development, delivery and operation of mining or mineral processing studies and projects
- An established contact network within designated market (base metals and minerals) would be a major advantage
- Excellent written technical and communication skills. Spanish speaking is a plus
- Demonstrated leadership, client relationship and management skills

If this role sounds like you, please visit <https://ausenco.com/careers> or click [HERE](#) and submit a detailed application.
